## **Elliott B. Branch**

### **Executive Director for Contracts Naval Sea Systems Command**

Mr. Elliott B. Branch is the Executive Director for Contracts, Naval Sea Systems Command (NAVSEA). He has full authority and responsibility for one of the largest and most responsible procurement organizations in the Federal government; his duties involve the obligation and expenditure of billions of dollars annually. As the senior civilian for contracting at NAVSEA, Mr. Branch is responsible for the contractual oversight of the Nation's most complex shipbuilding and weapons systems procurement programs.

He is a member of the Senior Executive Service (SES). Members of the SES serve in the key positions just below the top Presidential appointees. They are the major link between these appointees and the rest of the Federal work force. SES members operate and oversee nearly every government activity in approximately 75 Federal agencies.

Before returning to NAVSEA, Mr. Branch's most recent positions have been in the private sector, where he specialized in acquisition and project management education, training and consulting for the federal workforce and its associated contractors. In this role, Mr. Branch was responsible for the design, development, delivery and maintenance for a wide variety of course material ranging from project management to contract law. Mr. Branch's clients included Computer Sciences Corporation, QSS Group, BAE Systems, the Pension Benefit Guarantee Corporation, and the Departments of Defense, Energy and State.

Prior to that, he served as the Chief Procurement Officer for the Government of the District of Columbia, where he was the agency head who was responsible for procurement operations, policy, and for formulating legislative proposals for local and Congressional consideration. Mr. Branch led a staff of over 200 employees that supported over 40 city agencies, administered a \$15 million annual operating budget, and oversaw the placement of \$1.5 billion, annually, in city contracts.

Before joining the District government, Mr. Branch held various positions in the SES with the Department of the Navy (DON). In 1993, he became a member of the SES as the Director, Shipbuilding Contracts Division, at NAVSEA. He next served as Executive Director, Acquisition and Business Management for DON, responsible for policy and oversight of contract operations throughout the entire Navy. While in this position, he

also served as Project Executive Officer, Acquisition Related Business Systems. In this role, he was responsible for the formulation and execution of a multi-year effort transforming the Navy's acquisition system from a paper-based system into one that made use of electronic technologies and methods. In this role, Mr. Branch was directly responsible for a portfolio of projects worth more than \$200 million.

Mr. Branch graduated with a bachelor's degree in economics from the University of Pennsylvania and completed the Executive Program at the University of Virginia, Colgate-Darden School. He has received the Navy Distinguished Civilian Service Medal, the David Packard Excellence in Acquisition Award, the Presidential Rank Award for Meritorious Executive, and the Vice Presidential Hammer Award for Reinventing Government.
